**VM** refers to Virtual Machine and results in specific hardware charges being applied

**Level of Support** - Level 1, Level 2 or Level 3 server support

**Type** - Production (**P**), Quality Assurance or Test (**Q**), Secondary or Development, (**S**) Disaster Recovery (**D**)

**High Security Subnet** - Network configured for regulatory requirements (Internal and External Scanning)

**Multiple Apps** - More than one major application or software (e.g. Web server and Database server) on one machine
